Revision Date:
April 9, 2020

Background:
An IMD is defined as a hospital, nursing facility, or other **institution with more than 16 beds** that is primarily engaged in providing diagnosis, treatment, or care of people with mental diseases. If a facility functions primarily as a facility established and maintained for the care and treatment of people with mental diseases, then it is an IMD; it does not have to be licensed as such. An institution for the developmentally disabled is not an IMD.

Purpose:
This section has been written in the current format; the rules for people age 22 have been corrected to match the State rules. The prior section stated that people age 22 could no longer get Medi-Cal in an IMD, which conflicted with the rest of the section.

Policy:
IMD Eligibility:
People between 21 and 65 years of age in IMDs can receive Medi-Cal if otherwise eligible.

Note: There is no federal financial participation for these people.

Medi-Cal Covered Services in an IMD:
Services covered for people 21 to 65 years of age in an IMD include the following:

- Facility charges (the daily bed rate)
- Medi-Cal covered physician services
- Prescription drugs
- Laboratory services
- X-ray services
- Dental services
- Vision services
- Psychiatrist services
- Psychologist services

Note: Services not related to the IMD (for example, hospital, emergency room, etc.) would be covered.

Disability Determination:
Determine the Medi-Cal eligibility of a person admitted to an IMD or who is a resident of an IMD as shown in the table below:

If disability …	Then …
Has not been established,	Initiate a referral to Disability Determination Services Division (DDSD) for a disability determination. Place the person in Aid Code 53 until a determination has been completed (See MPG 5.4 for instructions on DDSD referrals).
Has been established,	Place the individual in the appropriate disability aid code.

Individuals 21 and 22 Years of Age in an IMD:
If a Medi-Cal beneficiary in an IMD has been receiving psychiatric inpatient hospital services prior to his/her 21st birthday and continues to receive these services until age 22, he/she remains entitled to receive Medi-Cal benefits. Use Aid Code 82 (Medically Indigent Child).

A Medi-Cal Eligibility Data System (MEDS) hold and an alert will be generated at age 21 indicating that a special Eligibility Status Action Code (ESAC) is required for this age group and age. Submit an on-line request to the Family Resource Center (FRC) MEDS clerk to reactivate the person on MEDS using aid code 82 and assigning a special ESAC code of "4" or "9." Set a Case Alert for when the person turns 22 to evaluate for other Medi-Cal programs.

At age 22, the above person can no longer receive Medi-Cal in Aid Code 82, and their Medi-Cal eligibility must be reevaluated. If determined eligible, activate them in the appropriate aid code.

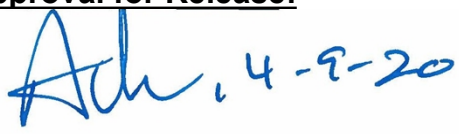

Procedure:
See above.

Program Impacts:
None.
