Community Prisoner Adult Program	Number	Page
	40-183.E	1 of 1

Revision Date:
June 1, 2024

Background:
The California Department of Corrections (CDC) operates the Community Prisoner Adult Program for low-risk adult inmates placed in community residential facilities where they are allowed to live with their pre-school age children. State regulations consider children residing with prisoner parents to be potentially eligible to CalWORKs, Medi-Cal, and CalFresh.

Purpose:
The section explains the policy for customers placed in community residential facilities. The purpose of this revision is to reformat the section to current standards and move the section from CalWORKs Program Guide (CPG) section 40-100.Q to CPG 40-183.E. With this revision, 40-100.Q is obsolete.

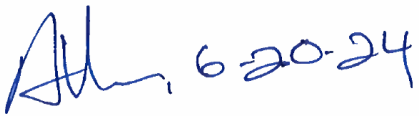

Policy:
Eligibility
Incarcerated individuals are not entitled to CalWORKs benefits because the CDC provides for all of their basic needs. Children residing with prisoner adults are potentially eligible for CalWORKs and Medi-Cal benefits as the CDC does not provide for the children's needs. These children may also be eligible to CalFresh benefits as a separate household. Normal eligibility determinations would need to be done for the children.

Treatment of Income/Resources
Incarcerated individuals are treated as excluded household members and are not entitled to CalWORKs benefits and are not included in the CW Assistance Unit (AU). Income and/or resources are excluded when determining CalWORKs eligibility or grant amount. Since prisoner adults must pay the facility for each child's living expenses, there is no in-kind income attributed to the child's AU.

Case Payee Payments
Prisoner adults are the case payee on the case.

Sunset Date:
This policy will be reviewed for continuance by June 30, 2027.

Approval for Release:

Rick Wanne, Director
Self-Sufficiency Services
