Intercounty Transfer (ICT)	Number	Page
	40-100.H	1 of 3

Revision Date:
May 1, 2025

Background:
Per state regulation, an Intercounty Transfer (ICT) must be initiated when an entire Assistance Unit (AU) moves from one county to another within California without a break in aid. An ICT is considered a continuation of benefits for a recipient, not a new application for an applicant.

Purpose:
The purpose of this revision is for sunset review. There is no policy change. This section is being renumbered from CalWORKs Program Guide (CPG) 40-100.P to 40-100.H. CPG40-100.P becomes obsolete with the issuance of this material.

Policy:
Customers must report a change in residence to either the receiving or sending county within 10 days of the actual move. Customers may report in person, in writing, by telephone, or online. If a customer fails to report a change in residency within California, this shall not constitute an overpayment or other negative action.

For the purpose of this material, the county where a customer was previously residing will be referred to as the "sending county" and the county where a customer currently resides will be referred to as the "receiving county."

If an AU moves from one region to another that pays a higher grant or vice versa, the receiving county will adjust the AU's grant to their Maximum Aid Payment (MAP) grant levels at the end of the transfer period regardless of whether the grant amount increases or decreases.

Initiating the Inter-County Transfer and Requesting Documents
The county that was notified of the change must initiate the ICT within 7 business days of receiving the notification. Benefits must be transferred to the receiving county no later than the first day of the next benefit month following 30 days after the county was notified of the change in residency, or the end of the month in which aid is discontinued, whichever is earlier.

The sending county must send a copy of documents supporting the eligibility determination to the receiving county. To the greatest extent possible, case documents must be electronically shared between both counties involved.

The receiving county must not ask the customer to provide documents that were provided to the sending county. The receiving county will continue to communicate with the sending county until the case is fully transferred to ensure that there is no interruption nor overlap in payment of aid. The receiving county will not make any changes to the CalWORKs budget until the next reporting period, unless a request to do so is made by the customer.

The customer is not required to:

- Complete a new application or interview.
- Complete a redetermination or Eligibility Status Report (SAR 7) unless it is due.
- Provide verifications that were provided previously to the sending county.

Victim of Domestic Violence (DV) Case

An ICT must be completed for DV cases and must be treated with utmost confidentiality. DV related information can only be released if the customer completes and signs an authorization form in either the sending or receiving county.

Employment Services (ES) and Child Care

The ES plan is to be provided as part of the ICT referral and will be used by the receiving county. The new county of residence is not precluded from interviewing the CalWORKs customer regarding participation in the ES Program.

To ensure child care stability, it may be appropriate to provide and complete form CCP 7 *Child Care Request* as part of the ICT process. It is the customer's responsibility to apply for child care in the receiving county. Form CCP 8 *CalWORKs Stage One Child Care Authorization* must be provided to the customer when they request for child care in the receiving county.

Sanctions and Penalties

All sanctions and penalties will be transferred to the receiving county.

Homeless Assistance (HA)

The county where the CalWORKs customers are physically located and intend to reside is responsible for determining HA eligibility, regardless of the ICT status. The issuance of HA is based on the date the county receives the request, with all eligibility requirements met.

The sending county shall inform the receiving county of the amount of days of Temporary Homeless Assistance (THA) the customer has received and the type of HA benefits the customer has received, including THA and Permanent Homeless Assistance (PHA) based on an exception as well as Expanded THA.

Overpayments

CalWORKs overpayments will be transferred to and established in the receiving county. The remaining balance will be recouped in the receiving county.

Procedure:

Eligibility Policy and Procedure Guide (EPPG) 01-04
CalWORKs Processing Guide 40-100.H1

Forms:

CW 215 *Notification of Intercounty Transfer* (10/19) was revised to include the number of days of THA a customer has received and the type of HA benefits received.
