Revision Date:
March 1, 2025

Background:
The Wrap Around program consists of Intensive Case Management services. It provides closely supervised intensive case management assistance to Employment Services (ES) participants from a team of professionals.

Purpose:
The purpose of the Wrap Around program is to remove barriers that are preventing the customer(s) from participation in ES activities, by providing intensive and supportive relationships between the family, Employment Case Manager (ECM) and other support systems such as schools and employers. Because the entire family is mentored, participants learn how to develop contingency plans for working parent issues. The health and well-being of the child and the entire family is considered to make the transition to work a positive experience for all family members. This material revision is due to sunset date review. No policy or procedure changes have been made.
